

Distribution Target

As a member of Preferred Hotels & Resorts, your hotel requires services to further its distribution to the global community, establish its online presence, and facilitate the various facets needed to successfully acquire and complete a booking. We have a selection of professional tools — Pro Tools — that can help you achieve just that. While you may already have similar services through another vendor, you may find the value offered or the price of Pro Tools to be a better match for your hotel. Contact your Preferred Hotels & Resorts Director of Revenue Account Management for more information.
